Karin Kohlmetz

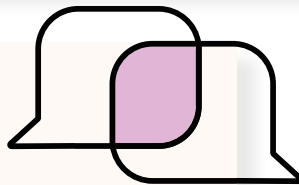

CV

Personal statement

I am a passionate and fun-loving Multimedia Designer, who has experience with freelance graphical design as well as digital art. I'm fascinated by different styles and aesthetics and value quality over quantity, therefore I enjoy creating original design with a clear visual identity. In a teamwork situation I offer positivity, motivation and value detail as well as structure. I am as team-minded as I am independent and I bring determination and creativity into both situations.

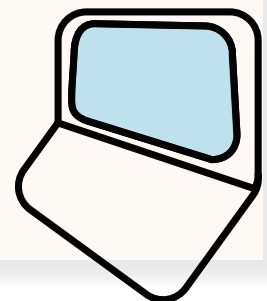

Languages

- Danish (Mother-tongue)
- English (Fluent, business fluent)

Tools

Illustrator, Adobe XD, Indesign, Photoshop, premiere pro, After Effects.

Experience and Education

Havnekiosken Fanø

For a year I worked in a store with a combined fastfood service as well as an icecream shop. My experience with customer service, food handling and rush-hours has taught me to come up with quick solutions and keep my teamspirit held high even in stressful situations.

Freelance digital artist

I've been commissioned by customers to create digital illustration, such as characters, pets, etc. This has given me experience in creative content and customer handling. I've learned to listen to customer demands and to be flexible through my work as a Freelance artist.

Multimediedesign at Erhvervsakademi Sydvest

2020 - 2022

During my education at EASV I've developed my abilities in graphic design, UX and a variety of code language, such as HTML, CSS and Javascript. I know how to work methodically with design, user experience and website framework and efficiently use the Adobe programs for such tasks.

Rybners Gymnasium – STX

2014 - 2017

I finished my STX in July of 2017.

Healthcare training programme, SOSU skolen

January 2019 - not completed

I learned to develop my humane competencies and the importance of the individual during my time on this education. I've been part of a team and understand how to comprehend and solve issues through communication .
